

Priceline Pharmacy Dubbo is looking for an Intern Pharmacist for 2019.

My dynamic, growing pharmacy is searching for the right candidate to fill this position.

We have multiple registered pharmacists working across the business. As the owner, I work fulltime in the pharmacy to support my staff. I only own one pharmacy so this is where my focus is solely placed.

We deliver a wide range of products and professional services including Websterpacks, Medschecks, HMRs, RMMRs, Sleep Apnoea Services, Vaccinations, Compression Hosiery, Opiate Treatment Program, Aged Care Facility supplies, QUM services to ACF's to name a few.

Our modern, automated dispensary allows for maximum pharmacist/patient interaction so that these services can be offered and delivered to the patients directly by the pharmacists while the dispensing robot delivers you the stock.

I have 20 years' experience as an Accredited pharmacist as well being a Pharmacist Vaccinator and am trained in Sleep Apnoea services. As your preceptor, I (and the other registered pharmacists) will provide support to the Intern to ensure they are successfully registered.

Please email your resume and a letter of application to me at pricelinepharmacydubbo@gmail.com
